HO.RE.CA. LINE

**GOOD, SAFE AND PURE
WATER**

HO.RE.CA. E SERVICE LINE

CAPITAL ACQUE, a leading company in the water treatment sector through the commercialization of *water refrigeration* equipment for human consumption, offers a service for the esteem of good and safe network water (subject to more than 100 checks a day) through their own equipment capable of **cooling** and **gasing** tap water.

Our **dispenser - professional line** - offer the possibility to easily supply water with or without the addition of CO2. They are particularly suitable for large needs such as: *canteens, bars, restaurants, etc.*

The **dispensers** are all equipped with a vertical-shaped ice bank for greater yield in lower volume. They allow to dispense pure, microfiltered and quality water in the versions: **ambient natural water, cold** and **sparkling**.

The **flow regulators** for sparkling water, of excellent practicality and great precision, stabilize the balance of quantity, quality and yields.

The **Dispensers** are offered *for sale* (with maintenance contract and optional assistance), or *on loan for use* with the **ALL INCLUSIVE** service.

ALL INCLUSIVE - All-inclusive Services of maintenance, assistance and warranty for the duration of the contract.

Models are available: *overcoat*, *under-counter* and *column*, with mechanical taps and/or predosage.

The equipment has different hourly production capacity of cold/ sparkling water, which goes from 20 l/h to 150 l/h, to meet every need.

The **dispensers** are equipped with an *anti-flooding safety system* and a *litre counter* which allows the quantity of water supplied to be **monitored**.

Reverse Osmosis - Professional line

Reverse osmosis is one of the most used technologies for reducing the content of mineral salts and for refining network water, eliminating any impurities. Its use is also useful in washing systems for which the salinity of water is one of the main causes of the malfunction. The osmosis water as well as preventing encrustations in the equipment, also avoids the halos on the dishes.

We supply **accessories**, **carafes** and **bottles**, also customized with graphics and company logos.

The **right solution** for every water problem.

Various tanks models available in various sizes.

Why choose water dispensers?

They're **CHEAP**

They're **PRACTICAL**

They're **ECOLOGICAL**

They're **SAFE**

They're **EASY TO INSTALL**
